

**Grand Haven Area Public Schools
Continuity of Services Plan
2023-2026**

Grand Haven Area Public Schools will continue to prioritize full, in-person teaching and learning which provides the greatest benefit to students. Ensuring that this can happen both consistently and safely during the upcoming school year, the 2023-26 Learning Plan provides detailed guidance to ensure that respiratory illness prevention and mitigation measures are implemented in a way that fosters optimal learning environments while simultaneously ensuring the health and safety for students and staff in Grand Haven Area Public Schools.

Please Note: This plan may change and evolve as knowledge changes surrounding current and potential variants or if the risks of severe disease, hospitalizations, or death increase. The plan may also need to vary based on in-school respiratory illness activity and outbreaks. If such changes are necessary, transition time may be needed to allow the district or building to make adjustments to mitigation strategies. Periodically, the plan will be reviewed and updates will be completed, if deemed necessary.

The CDC will determine the respiratory illness community level for the county. Based on the community level, as determined by the CDC, Grand Haven Area Public Schools, in consultation with MDHHS, will determine the number of mitigation strategies to implement to foster optimal learning environments while simultaneously ensuring the health and safety of students and staff.

The district will comply with any and all local, state, and federal mandates/orders.

The following plan outlines measures for respiratory illness in relation to community levels of low, medium, and high.
