Parent Request to Provide Food

GSRP programs provide meals and snacks to all children enrolled in GSRP. These provide Minimum standards for nutritious and safe meal service. The meals and snacks are provided at no cost to the family.

The foods provided must reflect the home and community cultures and be high in nutrients and low in fat, sugar, and salt. Parents who have concerns about the food provided should work first with program staff to improve food choices. Additionally, some families have chosen to adopt specialized diets; in this case, parents may elect to provide food from home for their child although this is not expected or encouraged.

If you wish to send food from home for your child, please complete this form and return to your child’s teacher.

☐ I understand the decision to provide food for my child is optional and that the program will provide food for meals/snacks for my GSRP enrolled child.

☐ I have chosen to and will provide food for all meals for my child.

☐ I have chosen to and will provide food for all snacks for my child.
