### Grand Haven High School

**Course Number:** S23

**Grade Level:** 11 and 12

**Credits:** .5/.5

**Prerequisite Courses:** Merit Math 9 and 10

### Course Description

This mathematics course is designed to give students a basic understanding of mathematical concepts and operations. The class will start with basic math review and move onto concepts that pertain to real life math situations. By the end of this course, students will have a better understanding of taxes, discounts, budgets and paychecks.

### Course Objectives

An emphasis is placed on mastering basic concepts that are necessary for success in life at school, at home and in the workplace. Basic math concepts are reviewed.

### Student Expectations

All students and staff are expected to do their personal best in class daily. Respect for yourself, others, and the environment around you will also be expected from everyone in the classroom. If a student's behavior is disrespectful or disruptive, discipline actions will follow.

### Communication

Communication with your teacher is an important part of this course especially if students are struggling with content. Please reach out to your teacher as soon as you have questions.

### Building Behavioral Expectations
